## DETAILED ACTION

### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Christine H. McCarthy on 06/28/05.

3. The application has been amended as follows:

Claim 1: A method of identifying an object having an identification means, comprising generating and transmitting an authorization signal indicating the timeslot or timeslots allowed for the transmission of an identification request signal,

receiving at a mobile station of a time division mobile communication system, in which the frequency channels used by the system are divided into timeslots, the an authorization signal indicating a the timeslot or timeslots allowed for transmission of ~~an~~ the identification request signal,

reading the object's identification data from the identification means by transmitting said identification request signal by the mobile station's radio transmitter to said identification means in the timeslot indicated by said authorization signal, and receiving an identification signal by the mobile station's radio receiver or by the mobile station's infrared receiver from said identification means, and

identifying said object on the basis of the identification data included in the identification signal.

Claim 3: A time division mobile communication system, in which the frequency channels used by the system are divided into timeslots, said system comprising  
a mobile switching centre,  
a base station communicating with the mobile switching centre;

Art Unit: 2681

an object comprising an identification means composed of a tag comprising means for generating an identification signal including identification data in response to a predetermined identification request signal,

a data processing device in which data relating to said object is maintained,

control means for generating and transmitting an authorization signal indicating a timeslot or timeslots allowed for transmitting an identification request signal, and

a mobile station comprising:

a radio transmitter and a radio receiver for setting up a connection to the mobile switching centre via the base station,

means for receiving the authorization signal,

means for reading said object's identification data from the identification means:

- by transmitting an identification request signal with the mobile stations radio transmitter to said identification means in the timeslot indicated by the authorization signal, and

- by receiving from said identification means the identification data included in an identification signal with the mobile stations radio receiver or with an infrared receiver, and

means for transmitting the read identification data with the mobile station's radio transmitter over the radio path via the base station further to said data processing device.

#### ***Allowable Subject Matter***

4. Claims 1-7 and 9 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1,3 and 9, the claims have been amended to include allowance subject matter of claim 8. Therefore, independent claims 1,3 and 9 are now allowable with the same reason set forth in the previous office action.

Claim 2 depends on claim 1. Therefore, it is allowed.

Claims 4-7 depend on claim 3. Therefore, they are allowed.

Art Unit: 2681

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
